Online games

An introduction to online games

An online game is a video game that is either partially or primarily played through the Internet or any other computer network available. There's a variety of online games available to play, some are single player games whilst others are multiplayer and can be played with friends and family remotely.

- **How can I play an online game?** Firstly, you will need to download an app to allow you to play an online game (please see previous 'How to guides' for information on downloading apps) as it will depend on the make of your phone whether you use the App Store (iPhones) or Google Play Store (Android).

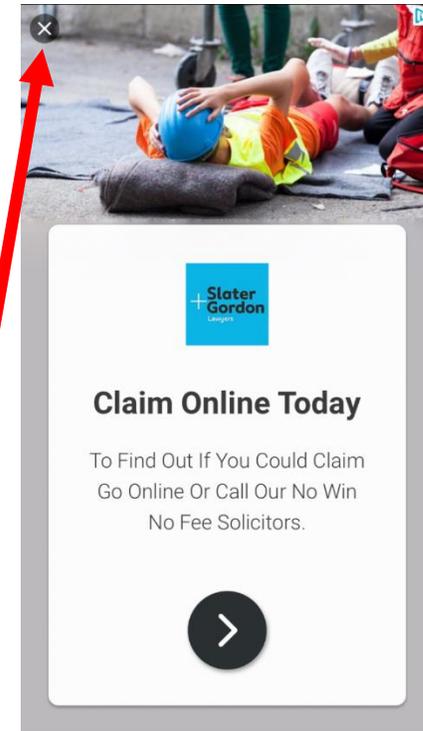

Play Store

With 1,000s of online games available we have compiled a list of some you might enjoy including:
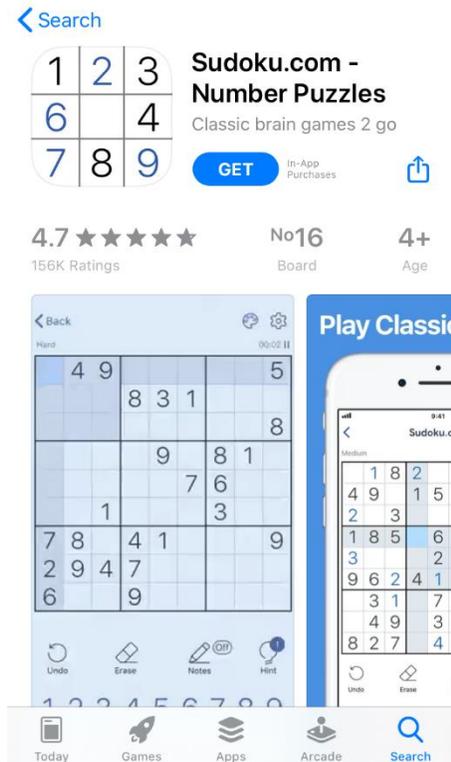

- Words with Friends
- Puzzles
- Board games

Please note whilst the games are free to download, some have "in-app purchasing" and adverts which will automatically play in-between games. Either wait 30 seconds for the advert to finish or select the "X" at the top of the screen.

Word games – Words with friends

A popular crossword puzzle game you can play against other Words with Friends account holders or family and friends. Once the App is downloaded you will be required to set up your Words with Friends account through "Log in with Email".

Click on the yellow tile at the top left of the screen to access your profile and to see your <u>username</u>.

Once in your Profile you can access "Settings" including Privacy Settings. Adjust according to your personal preference.

Word games – Words with friends

Once the game has been accepted by your opponent, it will either say "Their Turn" or "Your Turn" at the top of the screen. When it's your turn drag and drop the tiles from the bottom of the screen to make a word on the board. Once you have your word select "PLAY" at the bottom of the screen.

Other options within the game include:

Pass (A) – Pass your turn.

Play (B) – Play the tiles you have put down.

Swap (C) – Reorders your tiles at the bottom of the screen.

Recall (D) – Recalls the tiles you have placed on the board during 'Your Turn'. Once you press "PLAY" these tiles cannot be recalled.

The game ends when the player places his/hers last tile. Or to end the game press "MORE" and "Resign".
